Building Construction Illustrated By Francis D. K. Ching, Cassandra Adams

Comprehensive and up-to-date-

the classic visual guide to the basics of building construction

For twenty-five years, Building Construction Illustrated has offered an outstanding introduction to the principles of building construction. Now this Third Edition has been expertly revised and updated to address the latest advances in materials, building technology, and code requirements.

Complete with more than 1,000 illustrations, the book moves through each of the key stages of the design process, from site selection to building components, mechanical systems, and finishes. Topics within each chapter are organized according to the CSI MasterFormat(TM), making the book extremely easy to use.

Special features of this edition include integrated coverage of environmentally friendly materials, sustainable building construction strategies, and ADA requirements, as well as the inclusion of both metric and standard U.S. measurements throughout the book.

With its clear presentation of the basic concepts underlying building construction, Building Construction Illustrated, Third Edition equips students and professionals in all areas of architecture and construction with useful guidelines for approaching virtually any new materials or techniques they may encounter in building planning, design, and construction.

FRANCIS D.K. CHING is a registered architect and a professor at the University of Washington. He is the author of six highly successful architecture books, including *Design Drawing and Architectural Graphics*, all published by Wiley. CASSANDRA ADAMS is an architect and consultant in construction management and ecological design. She has taught architecture, construction, and environmental courses at the University of Washington and the University of California-Berkeley.

Users Review

From reader reviews:

Manuel Britton:

Why? Because this *Building Construction Illustrated* is an unordinary book that the inside of the publication waiting for you to snap the item but latter it will distress you with the secret the item inside. Reading this book alongside it was fantastic author who also write the book in such wonderful way makes the content on the inside easier to understand, entertaining way but still convey the meaning fully. So , it is good for you because of not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of rewards than the other book include such as help improving your talent and your critical thinking means. So , still want to hold up having that book? If I had been you I will go to the reserve store hurriedly.

Patsy Cassella:

Reading can called imagination hangout, why? Because if you find yourself reading a book specifically book entitled Building Construction Illustrated the mind will drift away trough every dimension, wandering in every aspect that maybe unknown for but surely can be your mind friends. Imaging each and every word written in a reserve then become one type conclusion and explanation this maybe you never get just before. The Building Construction Illustrated giving you another experience more than blown away the mind but also giving you useful facts for your better life in this particular era. So now let us explain to you the relaxing pattern at this point is your body and mind will probably be pleased when you are finished studying it, like winning a. Do you want to try this extraordinary shelling out spare time activity?

Barbara Roundtree:

You are able to spend your free time you just read this book this guide. This Building Construction Illustrated is simple to develop you can read it in the area, in the beach, train and also soon. If you did not include much space to bring the printed book, you can buy often the e-book. It is make you quicker to read it. You can save typically the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.

Elizabeth Walborn:

What is your hobby? Have you heard which question when you got pupils? We believe that that question was given by teacher to their students. Many kinds of hobby, Every person has different hobby. And you also know that little person like reading or as studying become their hobby. You should know that reading is very important along with book as to be the matter. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You get good news or update concerning something by book. Many kinds of books that can you decide to try be your object. One of them is actually Building Construction Illustrated.
