CNET Do-It-Yourself Home Networking Projects: 24 Cool Things You Didn't Know You Could Do! By Jim Aspinwall

Set up a high-speed home network

Network the computers and peripheral devices in your home or small office with the fun and practical projects packed inside this hands-on guide. Produced in conjunction with CNET.com, the place you go for the latest in tech and consumer electronics, this book shows you how to create a wired or wireless network so you can share files, printers, and other resources. You'll also learn to set up a server and secure and expand your network.

Inside, you'll find 24 self-contained projects, step-by-step instructions, a list of tools needed at the beginning of each project, and hundreds of clear photos and screenshots. *CNET Do-It-Yourself Home Networking Projects* takes you from beginning through advanced tasks with ease!

- Control other PCs remotely
- Share network storage without a server
- Set up a webcam server
- Enable and share a cellular data connection
- Watch live TV from anywhere via a Sling Media bridge
- Integrate IM and VoIP applications into your network
- Run your own PC weather station
- Connect TiVo to your home network
