By Mark Haigh-Hutchinson

Real-Time Cameras By Mark Haigh-Hutchinson

The control of cameras is as important in games as it is in cinema. How the camera tracks and moves determines our point of view and influences our attitude towards the content. A poorly designed camera system in a game can disrupt a users experience, while a well-designed one can make a good game into a great one. The challenge in games is that the camera must respond to unscripted events, and this is where much of the difficulty of designing real-time camera systems arises. The increasing use of motion in virtual environments, marked by the inclusion of physics modeling and complex collision detection systems, means that camera systems must be even more effective to keep up. **Real-Time Cameras** is written by an experienced game developer who has written camera control systems for award-winning games such as *Metroid Prime*. Mark Haigh-Hutchinson discusses the key algorithms for camera control and then shows how to implement them in code. This book is written for game developers and designers, although it is also pertinent to other professionals in the interactive media field. **Real-Time Cameras** presents a practical approach to camera systems, introducing their theory, design, and implementation.

Editorial Review

About the Author
Mark Haigh-Hutchinson is a senior software engineer at Retro Studios Inc., based in Austin, Texas. He has designed and programmed video games professionally since 1984 and as a hobby since 1979. He has contributed to over 40 published games in roles as varied as programmer, designer, and project leader. Some of the more notable titles he has worked on include several Star Wars games: *Rogue Squadron*, *Episode 1: Racer*, *Shadows of the Empire*, and *Rebel Assault*, as well as other games such as *Zombies Ate My Neighbors* and *The Secret of Monkey Island 2*. Most recently Mark was responsible for the camera systems and player control in the award winning *Metroid Prime* and its sequel *Metroid Prime 2: Echoes*.

Users Review

From reader reviews:

Tracy Rendon:

Why don't make it to become your habit? Right now, try to ready your time to do the important act, like looking for your favorite guide and reading a guide. Beside you can solve your trouble; you can add your knowledge by the publication entitled Real-Time Cameras. Try to face the book Real-Time Cameras as your friend. It means that it can to get your friend when you feel alone and beside that of course make you smarter than in the past. Yeah, it is very fortuned to suit your needs. The book makes you a lot more confidence because you can know anything by the book. So , let us make new experience along with knowledge with this book.

Barbara McGowan:

What do you concentrate on book? It is just for students because they are still students or it for all people in the world, what the best subject for that? Just you can be answered for that problem above. Every person has diverse personality and hobby for each other. Don't to be pressured someone or something that they don't wish do that. You must know how great and also important the book Real-Time Cameras. All type of book are you able to see on many solutions. You can look for the internet methods or other social media.

Jacqueline Britt:
