Sunshine Makes the Seasons (Let's-Read-and-Find-Out Science 2) By Franklyn M. Branley

The sun shines down on us, giving warmth and light. But did you know that the sun also makes the seasons? As the earth makes one complete rotation around the sun every year, the seasons on the earth change—from winter to spring to summer to fall and back to winter again. Find out how the light from the sun affects life on the earth for all living things in this look at the only star in our solar system.

Now rebranded with a new cover look, this book features content-rich vocabulary, fascinating side bars and diagrams by bestselling illustrator Michael Rex, and a find out more section with a simple experiment that allows kids to make their own orbiting model with an orange and a pencil. The author, Franklyn M. Branley, was the author of over 150 science books for children and Astronomer Emeritus and former Chairman of the American Museum of Natural History–Hayden Planetarium. The text and art were vetted for accuracy by an expert in the field.

This is a Level 2 Let's-Read-and-Find-Out Science title, which means the book explores more challenging concepts for children in the primary grades and supports the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out Science is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Editorial Review

From School Library Journal

Kindergarten-Grade 3 Colorful illustrations and clear easy-to-read text give this revised edition more appeal than the 1974 edition. The completely rewritten text is better organized with less repetition. It includes less descriptive information about the four seasons and places more emphasis on the causes of seasonal changes. A simply stated and carefully illustrated experiment using an orange, a pencil and a flashlight to help children actually see the differences on earth caused by the tilt of the earth as it rotates on its axis and revolves around the sun is particularly useful. A worthwhile addition, along with the 1974 edition and Berger's *Time After Time* (Coward, 1975; o.p.). For younger children, Gibbons' *Sun Up, Sun Down* (HBJ, 1983) is a better introduction. Eunice Weech, M. L. King Elementary School, Urbana, Ill.

From the Back Cover

The sun shines down on us, giving warmth and light. But did you know that the sun also makes the seasons? As the earth makes one complete rotation around the sun every year, the seasons on the earth change -- from winter to spring to summer to fall and back to winter again. Find out how the light from the sun affects life on the earth for all living things in this look at the only star in our solar system.

About the Author

Franklyn M. Branley was the originator of the Let's-Read-and-Find-Out Science series and the author of close to 150 popular books about scientific topics for young readers of all ages. He was Astronomer Emeritus and former Chairman of the American Museum of Natural History-Hayden Planetarium.

Michael Rex learned to draw in Chatham, New Jersey, and studied at the School of Visual Arts in New York City. *Who Digs?* and *Who Builds?* are his first two books with HarperCollins. Mr. Rex lives in Brooklyn, New York.

Users Review

From reader reviews:

Clifford Ranger:

As people who live in the modest era should be change about what going on or details even knowledge to make these keep up with the era which can be always change and progress. Some of you maybe can update themselves by examining books. It is a good choice in your case but the problems coming to you actually is you don't know what one you should start with. This *Sunshine Makes the Seasons (Let's-Read-and-Find-Out Science 2)* is our recommendation to make you keep up with the world. Why, because book serves what you want and need in this era.

Siobhan Wilcox:

Information is provisions for people to get better life, information presently can get by anyone from everywhere. The information can be a expertise or any news even a huge concern. What people must be consider while those information which is in the former life are challenging be find than now could be taking seriously which one works to believe or which one the actual resource are convinced. If you receive the unstable resource then you have it as your main information there will be huge disadvantage for you. All of those possibilities will not happen inside you if you take Sunshine Makes the Seasons (Let's-Read-and-Find-Out Science 2) as your daily resource information.

Ana May:

The guide untitled Sunshine Makes the Seasons (Let's-Read-and-Find-Out Science 2) is the reserve that recommended to you you just read. You can see the quality of the e-book content that will be shown to a person. The language that publisher use to explained their way of doing something is easily to understand. The copy writer was did a lot of analysis when write the book, so the information that they share to you personally is absolutely accurate. You also could get the e-book of Sunshine Makes the Seasons (Let's-Read-and-Find-Out Science 2) from the publisher to make you more enjoy free time.

William Levitt:

Beside this Sunshine Makes the Seasons (Let's-Read-and-Find-Out Science 2) in your phone, it could possibly give you a way to get more close to the new knowledge or details. The information and the knowledge you might got here is fresh through the oven so don't always be worry if you feel like an outdated people live in narrow village. It is good thing to have Sunshine Makes the Seasons (Let's-Read-and-Find-Out Science 2) because this book offers for you readable information. Do you sometimes have book but you would not get what it's exactly about. Oh come on, that will not happen if you have this in the hand. The Enjoyable option here cannot be questionable, such as treasuring beautiful island. So do you still want to miss it? Find this book along with read it from now!
