Editorial Review

Review

Bearce's latest installment in the Top Secret Files series introduces young readers to the Cold War. Following the design and format of the previous titles in the series, reading this book is rather like opening a filing cabinet, reaching in, and pulling out a file. Any file will do. Skip around; every file contains something interesting: stories of the CIA operative who made an escape dressed as a dog; the Cambridge University students who became KGB spies; the 87-year-old "grey-haired granny" who became a spy. Suggested activities have readers making up secret codes, creating parachutes, making "glacier goo," and creating UFOs . . . Particularly valuable for young researchers is a lengthy guide to relevant websites. A nifty supplement to traditional nonfiction and fiction on the period. --**Kirkus Review**

This book is an excellent resource about the Cold War, and part of the "Top Secret Files Series." Other books include: The American Revolution, The Civil War, Gangsters and Bootleggers, Pirates and Buried Treasure, The Wild West. World War I, and World War II. Although all of these books address unknown facts of history, each book covers a respective topic, and would be an excellent addition to school libraries for historical reference. --**Annie Smith, Children's Literature**

Very highly recommended for school and community library collections. --**Midwest Book Review**
