**Industrial Process Automation Systems: Design and Implementation** By B.R. Mehta, Y. Jaganmohan Reddy

*Industrial Process Automation Systems: Design and Implementation* is a clear guide to the practicalities of modern industrial automation systems. Bridging the gap between theory and technician-level coverage, it offers a pragmatic approach to the subject based on industrial experience, taking in the latest technologies and professional practices. Its comprehensive coverage of concepts and applications provides engineers with the knowledge they need before referring to vendor documentation, while clear guidelines for implementing process control options and worked examples of deployments translate theory into practice with ease. This book is an ideal introduction to the subject for junior level professionals as well as being an essential reference for more experienced practitioners.

- Provides knowledge of the different systems available and their applications, enabling engineers to design automation solutions to solve real industry problems.
- Includes case studies and practical information on key items that need to be considered when procuring automation systems.
- Written by an experienced practitioner from a leading technology company

### **Editorial Review**

#### **About the Author**

B.R.Mehta is Senior Vice President with Reliance Industries Ltd., Mumbai. He has over 41 years' experience in the refinery and petrochemicals industry. He has worked on control systems and instrumentation engineering projects for Patalganga, Hazira, and Jamnagar Refinery & Petrochemicals during his 22+ years with Reliance Industries. Prior to joining Reliance, he worked for Agro-Chemical & Food Co., Kenya as Chief Instrumentation Engineer and for Indian Petrochemicals Ltd., Vadodara for 11 years as Instrument Engineer.

He is currently heading the design & engineering department for control systems & instrumentation. During his career he has worked with many overseas licensors, including U.O.P, Foster Wheeler , ICI, Union Carbide , Du Pont , Stork and Stone & Webster. He has also worked with engineering contractors Bechtel, John Brown , Lummus , Jacobs H & G , Lucky Engineering, Chemtex , Worley, and Aker Kvaerne. He has worked on basic engineering, detailed engineering, procurement, inspection, expediting, construction, testing, pre-commissioning & commissioning of various petrochemicals, chemicals, co-generation power & refinery projects from concept to Commissioning.

Dr. Y. Jaganmohan Reddy, has 18 years of experience in the field of industrial automation and control as a Senior Architect, Systems engineer, Project engineer, Test engineer, Maintenance engineer, and has also worked for Pre and Post sales support in industrial instrumentation, control and automation solutions. He graduated with a degree in Electronics and Instrumentation Engineering in 1997 from Kakatiya Institute of Technology and Sciences, Kakatiya University, Warangal and has a Masters in Software Systems in 2004 from Birla Institute of Technology and Sciences, Pilani, and got his Ph.D. in Electronics and Communication Engineering from JNTUK, Kakinada. Earlier in his career he worked for JOCIL Ltd, a subsidiary of The Andhra Sugars Limited as an engineer (Instrumentation), responsible for maintenance and project activities of the instrumentation and Control Engineering. He is currently working as a senior architect in Natural Gas Measurement and Monitoring Systems in HTS Lab Pvt. Ltd, Hyderabad.

Dr Reddy has published 26 research papers in various International/National journals and conferences and has authored two books on microgrids. He is a member of ISA, IETE and a Certified Automation Professional (CAP) and Systems Engineering Professional, and his research areas include Industrial automation, Power systems, Energy management systems, Instrumentation, and control systems.

#### **From reader reviews:**

#### **Juan Reynolds:**

Now a day folks who Living in the era where everything reachable by match the internet and the resources included can be true or not involve people to be aware of each information they get. How people have to be smart in obtaining any information nowadays? Of course the correct answer is reading a book. Reading a book can help folks out of this uncertainty Information specially this Industrial Process Automation Systems: Design and Implementation book because book offers you rich facts and knowledge. Of course the information in this book hundred per cent guarantees there is no doubt in it you may already know.

**Jackie Caldwell:**

The e-book untitled Industrial Process Automation Systems: Design and Implementation is the guide that recommended to you to see. You can see the quality of the guide content that will be shown to you. The language that creator use to explained their ideas are easily to understand. The writer was did a lot of investigation when write the book, therefore the information that they share to you personally is absolutely accurate. You also will get the e-book of Industrial Process Automation Systems: Design and Implementation from the publisher to make you a lot more enjoy free time.

**Jerry Goble:**

Do you one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Aim to pick one book that you find out the inside because don't ascertain book by its protect may doesn't work is difficult job because you are afraid that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer is usually Industrial Process Automation Systems: Design and Implementation why because the fantastic cover that make you consider regarding the content will not disappoint anyone. The inside or content is usually fantastic as the outside as well as cover. Your reading sixth sense will directly assist you to pick up this book.

**Santos Ball:**

That reserve can make you to feel relax. That book Industrial Process Automation Systems: Design and Implementation was bright colored and of course has pictures on there. As we know that book Industrial Process Automation Systems: Design and Implementation has many kinds or style. Start from kids until young adults. For example Naruto or Investigation company Conan you can read and think that you are the character on there. Therefore , not at all of book tend to be make you bored, any it offers you feel happy, fun and unwind. Try to choose the best book for yourself and try to like reading this.
