Editorial Review

Amazon.com Review

Relying on their strengths--he a pioneering physicist and she a highly respected spiritual healer--Targ and Katra reveal scientific evidence and gripping stories to prove the innate psychic power of the human mind. This collaboration first began when Katra helped Targ miraculously cure himself of metastatic cancer. Skeptics will probably find themselves impressed by the thoroughness of Targ's research as well as his highly plausible conclusions. For example, Targ reveals for the first time the startling results of declassified CIA experiments in psychic spying during the Cold War. Believers in spiritual healing will find support in Katra's impressive credentials and rich storytelling. The authors share a gift for engaging but spare prose, which makes for highly palatable reading, despite the density of ideas and information. --*Gail Hudson*

Users Review

From reader reviews:

Wesley Powell:

Here thing why that Miracles of Mind: Exploring Nonlocal Consciousness and Spritual Healing (Exploring Nonlocal Consciousness and Spritual Healing) are different and reputable to be yours. First of all studying a book is good however it depends in the content than it which is the content is as delightful as food or not.
