Remote Viewing: The Complete User's Manual for Coordinate Remote Viewing By David Morehouse

Is it possible to see across space and time? Even those who accept that humans can reach beyond the conventional five senses typically think of psychics as "special" or "gifted" with unusual abilities. But David Morehouse teaches otherwise—all human beings, including you, have the innate capacity for remote viewing.

David Morehouse was trained by the U.S. government in remote viewing—an exact scientific protocol for tapping the human power to gather information across space and time. In this comprehensive manual, he has taken his military training as an "operational" remote viewer and turned it into a step-by-step training system—one that teaches any serious reader how to unlock their natural abilities and become more than the physical world allows.

Remote Viewing includes more than just a method for gathering information. It is a transformational tool instilling within you the absolute and irrefutable evidence that you are more than human—that you are extraordinarily human. As you gain experience and confidence as a viewer, you will tap into the collective unconscious that connects you to everything and everyone in the universe. Through David Morehouse's training, you will learn to touch the infinite source of life and knowledge that spiritual masters throughout human history have sought.

David Morehouse's superiors in the DIA/CIA called him "the most exceptional candidate ever to have grasped this difficult intelligence collection methodology." What sets him apart as a teacher is his unparalleled ability to present the complexities of remote viewing in an accessible, logical, and artful manner. As more than 23,000 students have already discovered, David Morehouse has set a new and brilliant standard for teaching the scientific protocol of remote viewing.

"You have the ability to do this," Morehouse says. "Something extraordinary is absolutely possible in your life." Now for the first time, he brings you his method

for taking your first step into your ultimate potential in a single volume: *Remote Viewing: The Complete User's Manual for Coordinate Remote Viewing*, which also include a cool-down audio track. David Morehouse has found that this psychoacoustic “pink noise” track is especially effective for helping us enter the brainwave state of relaxed awareness needed for remote viewing.

A former Army major explains what the CIA taught him about viewing remote events. A kind of psychic ability, it involves the sophisticated application of the detecting, decoding, and objectifying we all carry out as part of normal perception. As happens when you think of your best friend just before he or she calls, certain awarenesses or perceptions can yield surprising pictures of the future once we recognize what is coming to us and what to do with it. Morehouse is a natural speaker, but he's so thrilled with his material that he doesn't realize how long he takes to set up and express his ideas. The instructions for the practice sessions are precise but will seem tedious to all but the most highly motivated listener.
