### Editorial Review

From School Library Journal

Grade 8 Up—Rossamünd Bookchild has begun his training as a lamplighter, lighting the highways of the Half-Continent and fending off the increasingly frequent attacks by the varied and dangerous monsters of the land. The militaristic lifestyle is rigorous and lonely. His only companion is a fellow outcast, a haughty aristocrat's daughter who is the only girl among the cadets. Rossamünd's alienation grows with his increasing suspicion that not all "boggles" are evil—a philosophy regarded as treasonous in his society. Both the story and the accompanying 90-page "Explicarium" build on and expand the information in *Foundling* (Putnam, 2006), and reading this book without a firm grounding in the first is not to be attempted. Cornish's rich supporting cast brings together some of the best characters of the previous installment (most notably the captivating, mercenary monster-slayer Europe) with a host of intriguing new personages, including a former lighter who is physically and mentally scarred from a monster attack, a sinister surgeon, and a horrible half-human half-monster construct. Devout fantasy fans will welcome the return to the socially and morally complex world of the Half-Continent and eagerly anticipate the concluding installment.—*Christi Esterle, Parker Library, CO*

\*Starred Review\* In the second book of the Monster Blood Tattoo trilogy, young Rossamünd Bookchild, a lamplighter prentice in the Emperor's service, has trouble fitting in with the lamplighters, who think he is too small and timid to travel the highways lighting and dousing the lights or to aid travelers facing danger. However, his skills with potives and restoratives earn him a role as dispenser of healing draughts and repellents. Then Threnody, an arrogant young member of a feared society of female monster hunters and a burgeoning wit, is foisted on the lamplighters for training, and she joins Rossamünd as another outsider in the service. The pair face not only bizarre monsters but also treachery on the part of the power-hungry Master-of-Clerks, who usurps the position of the Lamplighter-Marshall and transfers Rossamünd and Threnody to the most dangerous post in the Half-Continent. The setting, characterizations, and relationships are as well limned as in *Foundling* (2006), and the suspense is palpable as the two young people find themselves facing incredible survival odds. Once again, Cornish's black-and-white drawings and the *Explicarium*, a glossary more than 100 pages long, add to the whole, and once again, the conclusion is a cliff-hanger. A most fitting sequel that will leave readers eagerly waiting for the third book. Grades 7-10. -- Sally Estes
