Master Techniques in Surgery: Hepatobiliary and Pancreatic Surgery By Keith Lillemoe MD, William Jarnagin MD

Hepatobiliary and Pancreatic Surgery is part of the **Master Techniques in Surgery Series**, which presents common and advanced procedures in the major subspecialties of general surgery. The series is overseen by Josef E. Fischer, MD, editor of the classic two-volume reference **Mastery of Surgery**.

Hepatobiliary and Pancreatic Surgery depicts surgery of the liver, hepatobiliary tree, and pancreas, including cholecystectomy and hepatic resections. Both laparoscopic and open procedures are depicted. The book is written by acknowledged master surgeons, emphasizes surgical procedures, and is lavishly illustrated with original full-color drawings. Each chapter briefly assesses indications, contraindications, and preoperative planning before fully explaining and illustrating the procedure in step-by-step detail. Outcomes, complications, and follow-up are also discussed. Each chapter ends with a brief reference list.

Editorial Review

Review

"This is an excellent book, ideal for the chief, fellow, or faculty member preparing for these surgeries. It is more focused than the parent book, *Fischer's Mastery of Surgery, 6th edition*, Fischer et al. (Lippincott Williams & Wilkins, 2012). It would not be the best choice for a junior resident, who needs to read about basic anatomy, pathophysiology, and techniques."

Doody's Reviews (February, 2013)
