### Editorial Review

From the Back Cover

Understanding the Essentials of Critical Care Nursing 1e  
Kathleen Ouimet Perrin

This brief introduction to Critical Care Nursing provides core information essential for the novice critical care nurse to understand, whether that novice is a student or a new graduate. The problems presented are based on the likelihood that a novice critical care nurse will encounter them. Recommended practices rely on evidence-based findings for collaborative and nursing practice.

#### FEATURES

- **Visual Maps:** Each chapter includes visual maps to illustrate the relationships among the disease states, collaborative interventions, and outcomes.
- **Commonly Used Medications:** Medications most often prescribed for the conditions addressed in the chapter are highlighted.
- **Safety Initiatives:** These boxes highlight specific safety initiatives important for the nurse to understand.
- **Gerontological Considerations:** Many patients in critical care settings are older adults; this essential information will enhance the effectiveness of critical care nurses.
- **Nursing Diagnoses:** NANDA Nursing Diagnoses are suggested for the disorders and diseases presented
- **Case Study:** A case study of a realistic patient scenario illustrates the chapter content and provides an example of collaborative and nursing management.
