## **Editorial Review**

From School Library Journal

PreSchool-Grade 1-Two more titles about this pair of anthropomorphic dog pals. In the first, Gaspard tells about a class trip to the Museum of Natural History, during which he and Lisa are left behind past dark. Next, Gaspard goes to the hospital after swallowing a key chain so no one would steal it. Neither tale is credible and the hospital account is uncomfortably cavalier about a bad decision that results in a painless surgery filled with fun dreams, plus the reward of a giant race car after the operation. The smudged, primitive cartoon acrylics feature cute dog stances and expressions, but the text frequently breaks or wraps at awkward times. Solely for fans of these canines.

Reviewed with Anne Gutman's *Gaspard and Lisa at the Museum*.

Ages 3-6. Like *Gaspard on Vacation* and *Lisa's Airplane Trip*, starred in *Booklist*, February 1, 2001, these small, square books continue the adventures of two rabbit children in a big world. Each book tells an exciting story close to the hopes and fears of young children. In *At the Museum*, Gaspard and Lisa are thrilled when the class goes to the Museum of Natural History--until their classmates joke that the little outsiders belong in the extinct animals exhibit. That gives Gaspard an idea for sweet revenge, which doesn't quite work out as he had hoped. In *Gaspard in the Hospital*, the little rabbit swallows a precious key charm to prevent his big schoolmates from stealing it. He rides in an ambulance, has an X-ray and an anesthetic, and wakes to find his parents right there. In both books the words are simple, and Hallensleben's wonderfully expressive double-page pictures, with thick lines and lots of brilliant color, show the daily drama of the small, determined creatures dwarfed but never cowed by the scary giants around them. *Hazel Rochman*
