Editorial Review

Review

"Rigorous and Practical"

This is a rigorous and practical book in which the author takes you on a methodical, purposive journey, but it is not a highly technical accounting textbook. Each new area is introduced by applying the basics learned at the start. All fundamental areas of accounting are covered, but each is not overbroad. The learning process is facilitated by constantly applying the fundamentals of accounting to real examples. This application tests what you have already learned.

Francis G. Gillis in the *Saskatchewan Law Review*

"The best introduction to the legal and accounting aspects of corporate disclosures in the post-Sarbanes-Oxley world."

Professor Stephen Bainbridge, UCLA Law School

About the Author

Cunningham, the Henry St. George Tucker III Research Professor at GW Law School, has also written popular books on investing and financial information. Widely-selling titles include **The Essays of Warren Buffett: Lessons for Corporate America** and **The AIG Story** (written with Hank Greenberg). His work has been published in the leading law reviews as well as the most popular newspapers.

Users Review
