

The No-Nonsense Guide to Climate Change: The Science, the Solutions, the Way Forward (No-Nonsense Guides)

By Danny Chivers

The No-Nonsense Guide to Climate Change: The Science, the Solutions, the Way Forward (No-Nonsense Guides) By Danny Chivers

Just as the need for action on climate change becomes more urgent and overwhelming, the campaign to deny that humans are causing it has gained more traction. This completely new book meets the skeptics head on, offering a guide to the science, an insight into the politics of climate justice, and a clear sense of the way forward.

Danny Chivers is a freelance carbon analyst and environmental writer. He recently created an online carbon calculator encapsulating all of the United Kingdom's emissions for the *Guardian*, and is working on one that will do the same for the United States.

Editorial Review

About the Author

Danny Chivers is a freelance carbon analyst and environmental writer. He recently created for The Guardian newspaper an online carbon calculator encapsulating all of the UK's emissions – and is working on one that will do the same for the US. He is also a prominent performance poet.

Users Review

From reader reviews:

Clarence Guyer:

Information is provisions for people to get better life, information nowadays can get by anyone on everywhere. The information can be a expertise or any news even a problem. What people must be consider if those information which is inside former life are hard to be find than now could be taking seriously which one would work to believe or which one the particular resource are convinced. If you receive the unstable resource then you obtain it as your main information you will have huge disadvantage for you. All those possibilities will not happen within you if you take The No-Nonsense Guide to Climate Change: The Science, the Solutions, the Way Forward (No-Nonsense Guides) as your daily resource information.

Georgia Hernandez:

The book The No-Nonsense Guide to Climate Change: The Science, the Solutions, the Way Forward (No-Nonsense Guides) has a lot details on it. So when you check out this book you can get a lot of gain. The book was written by the very famous author. This articles author makes some research ahead of write this book. This kind of book very easy to read you will get the point easily after looking over this book.

Dennis Simpson:

This The No-Nonsense Guide to Climate Change: The Science, the Solutions, the Way Forward (No-Nonsense Guides) is great book for you because the content which is full of information for you who else always deal with world and possess to make decision every minute. This particular book reveal it data accurately using great manage word or we can declare no rambling sentences within it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but tough core information with lovely delivering sentences. Having The No-Nonsense Guide to Climate Change: The Science, the Solutions, the Way Forward (No-Nonsense Guides) in your hand like keeping the world in your arm, details in it is not ridiculous 1. We can say that no e-book that offer you world within ten or fifteen small right but this guide already do that. So , this can be good reading book. Hi Mr. and Mrs. stressful do you still doubt in which?

Michael Davis:

In this age globalization it is important to someone to receive information. The information will make a professional understand the condition of the world. The health of the world makes the information simpler to share. You can find a lot of recommendations to get information example: internet, classifieds, book, and soon. You will see that now, a lot of publisher which print many kinds of book. Often the book that recommended to you personally is The No-Nonsense Guide to Climate Change: The Science, the Solutions, the Way Forward (No-Nonsense Guides) this book consist a lot of the information on the condition of this world now. This book was represented just how can the world has grown up. The terminology styles that writer make usage of to explain it is easy to understand. The writer made some research when he makes this book. This is why this book suited all of you.
