## Engineering Mathematics By John Bird

- Colour layout helps navigation and highlights key learning points, formulae and exercises
- Fully up-to-date with Levels 2 and 3 of the BTEC Engineering Specifications
- Containing 1000 worked problems, 1750 further problems and 238 multiple-choice questions and answers
- Real-world situations and engineering examples put the theory into context

John Bird's approach to mathematics, based on numerous worked examples supported by problems, is ideal for students of a wide range of abilities. Theory is kept to a minimum, with the emphasis firmly placed on problem-solving skills, making this a thoroughly practical introduction to the mathematics engineering that students need to master.

This book presents a logical topic progression rather than following the structure of a particular syllabus, and is suitable for all Level 3 vocational students, early Foundation Degree students and for any introductory course involving engineering mathematics. However, the coverage has been carefully matched to the mathematics units within the 2010 Level 2 and 3 BTEC National Specifications.

In this sixth edition there is new material on logarithms, exponential functions, vectors, and methods of alternating waveforms. The book now includes even more problems to work through.

Ideal for use as tests or homework, full solutions to the revision tests are supplied on the accompanying instructor's website.

### Editorial Review

From the Back Cover

. Updated for the 2010 BTEC Nationals in Engineering syllabus . This book contains thousands of worked examples and revision tests . Supported with online tutor support materials, including an instructors guide and editable PowerPoint Presentation slides

Mathematics is a key element in determining success for the Edexcel BTEC National Engineering courses. Updated for the 2010 BTEC Nationals in Engineering syllabus, Engineering Mathematics, 6e by John Bird covers the main elements of mathematics in the core, mechanical and Electrical/ Electronic Units. There are currently over 13,000 BTEC National Engineering students in the UK.

Theory is introduced in each chapter by a simple outline of essential definitions, formulae, laws and procedures. This new, sixth edition will also be supported with online tutor support materials. These include an Instructors Guide which will give full solutions and marking schemes for each of the Revision Tests contained in the text.

About the Author

**John Bird**, the author of over 100 textbooks on engineering and mathematical subjects, is the former Head of Applied Electronics in the Faculty of Technology at Highbury College, Portsmouth, U.K. More recently, he has combined freelance lecturing at Portsmouth University, with technical writing and Chief Examiner responsibilities for City and Guilds Telecommunication Principles and Mathematics, and examining for the International Baccalaureate Organisation. **John Bird** is currently a Senior Training Provider at the Royal Naval School of Marine Engineering in the Defence College of Marine and Air Engineering at H.M.S. Sultan, Gosport, Hampshire, U.K. The school, which serves the Royal Navy, is one of Europe's largest engineering training establishments.

### Users Review

**From reader reviews:**

**Jack Lau:**

Have you spare time for a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a go walking, shopping, or went to often the Mall. How about open or perhaps read a book eligible Engineering Mathematics? Maybe it is to get best activity for you. You already know beside you can spend your time with the favorite's book, you can smarter than before. Do you agree with it has the opinion or you have some other opinion?

**Dorothy Delarosa:**

In this 21st millennium, people become competitive in most way. By being competitive now, people have do

something to make these survives, being in the middle of the particular crowded place and notice through surrounding. One thing that occasionally many people have underestimated this for a while is reading. Yep, by reading a e-book your ability to survive boost then having chance to stand than other is high. For you personally who want to start reading a new book, we give you this particular Engineering Mathematics book as beginning and daily reading guide. Why, because this book is usually more than just a book.

**Sharon Doyle:**

Information is provisions for folks to get better life, information currently can get by anyone from everywhere. The information can be a expertise or any news even a concern. What people must be consider if those information which is in the former life are hard to be find than now is taking seriously which one is appropriate to believe or which one the actual resource are convinced. If you get the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All those possibilities will not happen in you if you take Engineering Mathematics as the daily resource information.

**Freddie Straughter:**

Playing with family within a park, coming to see the sea world or hanging out with close friends is thing that usually you could have done when you have spare time, after that why you don't try matter that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition details. Even you love Engineering Mathematics, it is possible to enjoy both. It is fine combination right, you still desire to miss it? What kind of hang type is it? Oh seriously its mind hangout guys. What? Still don't get it, oh come on its called reading friends.
