American Women during World War II: An Encyclopedia By Doris Weatherford

American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi-official military organizations, as well as the millions of women who worked in civilian defense industries, ranging from aircraft maintenance to munitions manufacturing and much more. It also illuminates how the war changed the lives of women in more traditional home front roles. All women had to cope with rationing of basic household goods, and most women volunteered in war-related programs. Other entries discuss institutional change, as the war affected every aspect of life, including as schools, hospitals, and even religion.

American Women during World War II provides a handy one-volume collection of information and images suitable for any public or professional library.

Editorial Review

Review

'Overall it's a splendid, fascinating piece of impeccably well researched work and in its aim to be a "handy" reference resource, it more than succeeds!' - Oscar Courtney, Reference Reviews

"Many encyclopedias and dictionaries have been published on World War II, with some coverage of women, but Weatherford's work fills a major gap in reference books on this era. The encyclopedia will be of use to college and university libraries as well as public and high school libraries. ...Highly recommended." ?Vanette Schwartz, *Feminist Collections*, Vol. 31, Num. 3, Summer 2010
