Entering Transmasculinity: The Inevitability of Discourse By matthew heinz

Entering Transmasculinity is a holistic study of the intersecting and overlapping discourses that shape transgender identities. matthew heinz offers an examination of mediated and experienced transmasculine subjectivities and aims to capture the apparent contradictions that structure transmasculine experience, perception, and identification. From the relationship between transmasculinity's emancipatory potential and its simultaneously homogenizing implications, to issues of gender-queerness, sexual minorities, normativity, and fatherhood, *Entering Transmasculinity* the first book to synthesize the disparate areas of academic study in the context of digital constructions of the transmasculine self.

Editorial Review

From the Author

Acknowledgments

Most of all, I would like to express my gratitude to the trans-identified individuals who share their thoughts, their activism, and personal details of their lives online and offline. Whether a blog post, a documentary appearance, or a disclosure in a public setting, each of these contributions incurs personal risk as much as it engenders the potential to improve trans and gender diverse lives everywhere. I would like to especially thank members of the Vancouver Island trans community, who generously supported me during my transition and who participated in community-oriented applied research. I am sincerely grateful to the people in my personal and professional communities who helped bring this project to fruition and who have been supportive of my own transmasculine expression. Thanks to my family and friends who encouraged me to pursue this manuscript, Royal Roads University for internal grant support, three anonymous reviewers who provided thoughtful feedback, photographer Damian Siqueiros who contributed the cover art, and the staff at Intellect Books, especially Laura McKay, who initiated this project at the Canadian Congress of the Humanities and Social Sciences in 2013.
