Master Dentistry: Volume 1: Oral and Maxillofacial Surgery, Radiology, Pathology and Oral Medicine, 2e By Paul Coulthard BDS MFGDP MDS FDSRCS PhD, Keith Horner BChD MSc PhD FDSRCPS FRCR DDR, Philip Sloan BDS PhD FRCPATH FRSRCS, Elizabeth D. Theaker BDS BSc MSc MPhil

MASTER DENTISTRY is designed as a revision guide for dental students and offers the "curriculum essentials" in an easy-to-digest format. Each section is fully illustrated throughout and is supported by extensive self-assessment questions which allow the reader to assess their own knowledge of the topic and perfect their exam techniques. Now in colour, this second edition addresses oral and maxillofacial surgery, radiology, pathology and oral medicine and is perfect for both undergraduate students and post-graduates preparing for the MFDS or international equivalents.

- Quick reference revision aid for dental students – ideal for exam preparation!
- Integrates specialist areas of knowledge to enhance skills in clinical problem solving
- Evidence-based approach enables understanding of the strength of the evidence supporting current practice
- Includes extensive self-testing material – short answers, essays, MCQs and EMQs – enabling students to assess their knowledge and perfect exam techniques
- Suitable for post-graduate students who will find the book useful for the MJDF or international equivalent
- New chapter on evidenced-based practice
- Extensive revisions to sections on surgical implantology and assessment of trauma
- Updated self-assessment material to reflect current exam formats
- Now published with colour!

Editorial Review

Review

The book provides a fantastic blend of core teaching and texts from the relevant disciplines, to allow students the opportunity to gain not only core knowledge but also the ability to approach clinical problem solving logically. The volume also conditions the student to make sensible, safe and informed decisions about patient management, not only for BDS/BChD/MFDS finals but also in the field of primary dental care. This knowledge, and informed decision making, not only aids the ability to rationalise clinical scenarios, but also promotes self appraisal and knowledge of when to refer to specialist colleagues. 4th Year BDS Student, School of Dental Sciences, Newcastle University

This book is probably the main reason I was able to pass my oral pathology and oral surgery paper!!
BDS Student, Dundee

Users Review

From reader reviews:

Ivan Caputo:

Information is provisions for people to get better life, information presently can get by anyone from everywhere. The information can be a understanding or any news even an issue. What people must be consider whenever those information which is inside former life are difficult to be find than now is taking seriously which one works to believe or which one often the resource are convinced. If you find the unstable resource then you have it as your main information you will have huge disadvantage for you. All of those possibilities will not happen in you if you take Master Dentistry: Volume 1: Oral and Maxillofacial Surgery, Radiology, Pathology and Oral Medicine, 2e as your daily resource information.

Michael Torres:

The publication untitled Master Dentistry: Volume 1: Oral and Maxillofacial Surgery, Radiology, Pathology and Oral Medicine, 2e is the guide that recommended to you you just read.
